Hazardous Waste Satellite Accumulation Area

**LID**
- Containers must be kept closed except when adding waste
- Use vented caps when needed

**LABEL**
- Labels must be fully completed and attached when waste is first added to containers
- Percentages can be added later

**LEAKS & SPILLS**
- Use secondary containment to prevent spills
- Segregate incompatible waste streams in separate secondary containment bins
- Containers must be in good condition. Leaking containers must be repackaged immediately
